

Statement of Purpose (October 2023)

Introduction

Teladoc Health UK Ltd (“**THUK**”) is on a mission to address the full spectrum of health and well-being, not only when people are sick but also throughout their lifelong journey to achieve better health.

Our virtual care capabilities are delivered by appropriately qualified, experienced, and dedicated professional practitioners and staff. We strive to be acknowledged by our patients, suppliers and regulators as the leader in virtual care and patient centred support across the health sector. This is achieved by investing in the recruiting and training of our in-house clinical teams, achieving positive patient outcomes and always striving to exceed expectations. THUK is the world's only integrated virtual care system for delivering, enabling and empowering whole-person health, from wellness and prevention to acute care and complex healthcare needs.

THUK primarily delivers digital/virtual primary care services that are typically provided to private patients who are employees or large corporate clients or who are policy holders with large insurance clients. Some digital/virtual primary and secondary care services, typically involving the provision of Advice & Guidance, are also offered to NHS clients.

Patients can access the service via multiple modalities:

- Private digital/virtual primary care services are accessed directly by patients via app, online portal, or phone.
- NHS digital/virtual primary and secondary care services are accessed by NHS clinicians via specialist apps.

Our Aims:

THUK has the following aims:

- Our mission is to empower all people everywhere, to live their healthiest lives by transforming their healthcare experience.
